Professional Summary

Innovative and self-driven Full Stack Developer with over 1 year of hands-on experience designing, building, and deploying web applications. A proven problem-solver, I spearheaded the creation of "PLA.S.M.A.," a cost-efficient web solution, utilizing cutting-edge technologies and achieving seamless deployment. With a self-taught background, I excel in learning new tools and technologies rapidly and have demonstrated exceptional capabilities in both independent and team-oriented environments.

Professional Experience

PLA.S.M.A.

Product Manager & Full Stack Developer

Remote | Tenerife, Spain

- Conceptualized, developed, and deployed a full-stack web application entirely solo, using modern technologies.
- Designed application architecture with Vue.js and Nuxt 3, ensuring scalability and robust routing systems.
- Styled pages with Tailwind CSS for enhanced user experiences.
- Developed backend logic and REST APIs using Nuxt 3 and TypeScript.
- Also used Google Cloud's APIs (e.g., OAuth2.0, Geocoding).
- Implemented database queries and models with Drizzle ORM for SQLite.
- Deployed the project using NuxtHub, Cloudflare D1.

Flash Data

Full Stack Developer

Remote | Barcelona, Spain

- Enhanced product development by optimizing code and resolving anti-patterns and inefficiencies.
- Strengthened application security by identifying and resolving a critical login vulnerability.
- Collaborated on sprint planning and task assignments, improving team productivity.
- Partnered in pair programming sessions to develop new components for the product suite.

Shopify

Frontend Developer (CSS)

Remote | Various Locations

- Provided tailored CSS solutions for multiple Shopify stores, enhancing user experience and design consistency.
- Collaborated with diverse clients to customize their store themes and meet unique branding requirements.
- Optimized visual designs to ensure responsiveness and cross-browser compatibility.

Education & Technical Expertise

Self-Taught Developer: Proficient in a wide range of technologies, including:

Programming Languages: Python, JavaScript, C#, TypeScript

Frameworks & Libraries: Node.js, Express, Vue.js, Vite, Nuxt 3, Tailwind CSS

Databases: MongoDB, SQL, SQLite, Oracle

Tools: Google Colab, VSCode, Visual Studio, DBeaver

Cloud Platforms: GCP, Google Console, Cloudflare Workers, NuxtHub, Shopify

Soft skills

- **Adaptability:** Quickly master new technologies and frameworks.
- **Team Collaboration:** Actively build strong teamwork capabilities for collective success.
- **Communication:** Strong ability to clarify technical concepts and execute tasks effectively.
- **Resilience:** Proven perseverance in self-education and personal growth under challenging circumstances.

Languages

- **Spanish:** Native
- **English:** Bilingual
- **Italian:** Fluent
- **Russian:** Basic
- **French:** Basic

Achievements

- **Full-Stack Development Success:** Independently designed and deployed a full-stack application, showcasing technical proficiency and project management.
- **Self-Taught Journey:** Overcame challenges by self-educating across multiple disciplines, demonstrating unparalleled determination and drive.
- **Continuous Growth:** Transitioned from formal education to professional development while supporting family responsibilities, underscoring resilience and commitment.

Why Choose Me?

I'm a passionate developer with a relentless curiosity and drive for excellence. I bring unique value through my ability to learn rapidly, think creatively, and solve problems effectively. My work reflects a balance of technical expertise and a commitment to delivering exceptional user experiences.
